

To  
United Nations

Date: 25<sup>th</sup> February, 2021

Myanmar has been striving for a long time to this day to practice a full-fledged democracy. At this moment, Min Aung Hlaing's military regime has forcibly detained the people-elected government by threatening with weapons. The Myanmar people are strongly opposing to this coup, by means of the civil disobedience movement and peaceful non-violent protests and demonstrations. As it is very clear that this Myanmar's democracy affair is a global issue, progressing by connecting with the international community means a vital thing. We, the students' unions in Myanmar, have come together to send this letter in order to call for the global community to show and demonstrate its responsibility and solidarity of the world.

Our visions are as follows:

1. To end the military dictatorship.
2. To establish the people-elected government without the military regime.
3. To achieve full federal democratic standards.

Our calls are as follows:

1. The United Nations and international governments recognize the Committee Representing Pyidaungsu Hluttaw (CRPH) as a legitimate government with validated mandate and initiate impactful diplomatic works.
2. To cut off all diplomatic relations with Min Aung Hlaing's military regime.
3. To apply diplomatic pressure in various means in accordance with international standards in order to immediately release more than 700 detainees arrested by the junta since February 1.

4. To continue to provide humanitarian assistance and protect the civil servants who are participating in civil disobedience movement.
5. The International Criminal Court (ICC) should take immediate action against the human rights abuses and war crimes committed by Min Aung Hlaing and his military regime to this day.
