

Date : 27th February, 2021

International Committee of Red Cross

To our respected Sir/Madam

On February 1st, 2021, Myanmar, on her path to achieve democracy, was forced to fight the injustice since Min Aung Hlaing and the dictators unlawfully schemed the Military Coup all over the country and illegally arrested Myanmar's State Counsellor Daw Aung San Su Kyi, President U Win Myint and our democratically elected leaders by wrongly accusing them of committing felonious crimes.

Burning passions for the true democracy and the unwillingness of Myanmar citizens to tolerate this injustice has encouraged millions of people to voice up against this inhumane action by protesting peacefully on the streets without disturbing the public, the Civil Disobedience Movement by the civil servants and so on. Despite all these peaceful measures by the civilians, the Military Juntas continued to pressure the civil servant who are involved in the Civil Disobedience Movement by taking unlawful actions such as threatening and cursing, opening fire at their houses at night, throwing gas bombs and starting arsons.

On February 27th 2021, the Medical Cover team with doctors and nurses who were helping the peaceful protesters at Tarnwe, a township in Yangon, were forcefully demolished, were threatened with guns pointing at the doctors, and were pressured with being beaten by batons, and even bullied the pregnant women physically. The following photos shows the evidence of the crimes against humanity by the Military and the police.

Dr. Myat Thuzar Khin (PhD) has lost her life in this battle with inhumane savages by getting shot in her abdomen region, urinary bladder. Similar incident has also occurred on 20th February 2021 at other cities including Mandalay where we lost the innocent lives of our 8 comrades who thrived for justice, who founded the true democracy.

According to the Geneva Convention (April 21- August 12, 1949) Geneva Convention Article 24;

“Medical personnel exclusively engaged in the search for, or the collection, transport or treatment of the wounded or sick, or in the prevention of disease, staff exclusively engaged in the administration of medical units and establishments, as well as chaplains attached to the armed forces, shall be respected and protected in all circumstances.”

It is very evident that this article was violated and the government/association which cannot follow this concurrence can be labeled as committing war crimes or crimes against humanity. Therefore, with all due respect to the UN Geneva Convention 1949 (Rome Statue of the International Criminal Court-Article 8), we request the International Committee of Red Cross to take effective and immediate measures against the barbaric and uncivilized actions by Myanmar Military Junta.
