

## **H.E. DR. SASA'S MESSAGE ON THE 45TH ANNIVERSARY OF MARTYRDOM OF SALAI TIN MAUNG OO:**

It has been 45 years since the military dictators slaughtered Salai Tin Maung Oo, the leader of the student movement, on the 26th of June, 1976. Salai Tin Maung Oo's sacrifice of his life for the cause of freedom and democracy remain as yet unanswered by the military dictators in Myanmar. It has been 45 years since Salai Tin Maung Oo gave a very strong message to the military dictatorships and to the world that "you can kill my body, but you can never kill my dream and vision, I shall never kneel down under the military dictatorships (your soldier's boots)". Today, I wanted to repeat the message of Salai Tin Maung Oo to this brutal military junta - the SAC led brutal regime of Min Aung Hlaing and to those of you who report to the SAC - that, we the 54 million people of Myanmar will and never bow down before your cruelties, your reign of terror and hellish nightmare, but instead we will eradicate and bring an end to the military dictatorship that has brought such uncontrollable and unspeakable terrorism, death, destruction, pain and suffering to our people, and we will build an inclusive Federal Democratic Union of Myanmar for ALL the people Myanmar. We will make Salai Tin Maung Oo's dreams and the dreams of the brave of Myanmar become a reality. Let me repeat again to the military junta - SAC and their supporters that "you can kill our bodies, but you cannot kill the love that we have for our people, the visions and dreams that we are carrying for not only this generation, but many generations to come in Myanmar. You can destroy our homes and villages, but you can never destroy our hopes and beliefs that we have for our future and the future of generations to come in the nation of Myanmar". I once again salute the national hero Salai Tin Maung Oo and all the fallen heroes of the Nation for the cause of freedom and inclusive federal democracy in Myanmar. We must win this spring revolution, and indeed we are winning big and the military dictatorship is steadily losing. We will never give up and we will never surrender, we will not rest until Salai Tin Maung Oo's dreams and the visions of the brave people of Myanmar are achieved. We salute and honor Salai Tin Maung Oo, and all the fallen heroes of the Nation, for our people and for our country.

**Sincerely,**

**- H.E. Dr. Sasa -**
