Statement on Bombardment of Thantlang

No. (3/P-1/KPICT/2021)

November 2, 2021

1. The terrorist State Administration Council (SAC) is ruthlessly attempting to install military rule through nationwide military offensives which purposefully target civilians and their properties. This signifies utmost violation of international human rights conventions.
2. It is heartbreaking to see several churches and civilian homes in Thantlang, Chin State, destroyed by indiscriminate artillery shelling of the military junta on October 29, 2021.
3. These incidents are irrefutable evidence of purposeful violation of international humanitarian laws and crimes against humanity.
4. We urge international communities to closely monitor SAC's violation of international humanitarian laws and Geneva Convention, to urge SAC to end its inhumane crime against the civilians, and to stand by the SAC-victimized people.
5. We express our deepest sympathies with grieving people of Thantland, and affirm that, in solidarity with the oppressed people of the country, we will continue fighting against the fascist dictatorship.
