### Statement On the Sexual Abuses Committed by The Junta-Troops Led by Min Aung Hlaing

#### Upon the Woman-Comrades

Date: 19<sup>th</sup> February, 2022

The woman-comrades from ABFSU has been fighting for eradicating the military dictatorship long before their coup was staged. At the present of this Spring Revolution, the woman-comrades and woman-activists are still fighting magnificently along with the men to eradicate the military dictatorship.

It has been learned that one detained woman-comrade, the member of ABFSU, captured by the junta-troops, has been tortured, abused sexually during the custody of interrogation by the Junta -troops, and currently has she been locked up behind the bars in isolation. She has also been denied to receive any medical treatment. We have heard that other woman-comrades and activists detained nationwide have suffered much the same.

We have learned that the sexual harassments have been suffered not only by the woman-comrades but also by the men and even the boys during their custody in Junta-interrogation centers. We have stated a case of sexual abuse upon the detained male political prisoners: the atrocities such as forcibly injecting bamboo poles into the victims' anuses. The Junta's persecutions and oppressions leave us no words to describe.

We, the ABFSU, urge all the internal and international human rights organizations and the revolutionary civil organizations to speak out; condemn to those sexual harassments and tortures; and demand the proper medical treatment for those injured and tortured.

We, the ABFSU comrades, have been firmly committing ourselves to all absolute sacrifices since we started fighting against all forms of oppression as well as the Military Dictatorship. Accordingly, never shall our unwavering efforts in this revolution get relucted even for a second by all means of cruelties of the Military Junta.

**We may bleed, get tortured into pieces.**

**But we are unbowed.**

**The Military Dictatorship must fall.**

Aung Pyae Sone Phyo
